To: Tim Williams, Creative Renovations

Tim,

We want to send a quick word of thanks for our beautiful screen porch and deck addition. We used the porch this past weekend for the first time and we were so pleased with it! We especially like the design with the high pitched roof and the way the porch fits in with and matches the rest of our home.

We appreciated your many phone calls to keep us informed as the work progressed and the timely manner in which you coordinated the many aspects of our job. We also appreciated your ability to make some changes as we realized halfway through the project that the area below the porch and deck would make wonderful outside storage space. Your carpenter is a superb craftsman!

Many thanks for all your efforts and for creating such a wonderful addition to our home!

With thanks and appreciation,

Tim and Judy Taft
